

TESTIMONIALS

"YOU WILL BE CHALLENGED
FROM THE FIRST DAY."
- MICHIEL

The experience of a contrast internship is one to be recommended to all students interested in either corporate or competition law or both.

Not only will you be challenged from the first day to show both your **knowledge and soft skills** in interesting and demanding cases, you will also be able to experience the dynamic combination of a **hardworking and quality-delivering environment** and an amicable team spirit.

Being part of such a **knowledgeable and passionate team** for one month is an added-value to all students. contrast truly does make a difference.
