

TESTIMONIALS

"MY INTERNSHIP WAS FUN THANKS TO THE
GREAT ATMOSPHERE AND TEAM SPIRIT."
- VICTOR

My summer internship at contrast has shown me what the job of a corporate lawyer entails. The entire team put great effort in providing me with **experience and insight** on every part of the job.

I got to work on several cases, all very interesting and challenging: at contrast, the summer interns are full members of the team. I got the room to **work independently**, but the constant feedback and availability for questions made sure I developed and learned as much as possible and was never left on my own.

Apart from being professionally enriching, my month at contrast was also fun thanks to the **great atmosphere and team spirit** in the firm. If you want to learn what working in corporate law looks like, I definitely recommend an internship at contrast.
