

CONTRAST SUMMER TRAINEESHIP

"BEING AN INTERN AT CONTRAST FEELS LIKE A GENUINE COLLABORATION."

Margot
business student

contrast is keen to think outside the box. They excel at providing a **unique learning experience**, not only for law students, but also for me, a business student. My internship at contrast gave me the opportunity to witness the mix between law and business.

Being an intern at contrast truly feels like a collaboration. Besides receiving **constructive feedback**, I also had the opportunity to give my own input.

I was given the opportunity, with a lot of **room for initiative**, to work on a financial plan for contrast's compliance programme, and was invited to join a compliance training given for one of their clients.

In short, my internship at contrast was a truly **enriching experience**.
