

CONTRAST SUMMER TRAINEESHIP

TESTIMONIALS

Tine
law student

"MY INTERNSHIP HELPED ME FURTHER DEVELOP MY PASSION FOR EU LAW."

"My internship at contrast was **genuinely educational** for me. Not only did it allow me to discover the practical side of European law, contrast also supported me in further developing my passion for EU law.

The most interesting thing about contrast is that it has a **unique stance on law**. Where most people think of 'law' in a litigation context, contrast views 'law' as a tool for avoiding litigation in the first place. Therefore, contrast focuses on an all-round service, going truly above and beyond for their clients and advising them on all things competition. This has taught me to view law in a totally different, more practical way and to use it to my advantage when trying to **solve real-life issues for clients**.

In essence, I would recommend an internship at contrast to all students wishing to discover the **practical side of European law** and those who are eager to learn even more about European law on a daily basis."
